RIYA PATKAR

AI/ML & FULL-STACK DEVELOPER

riyapatkar20@gmail.com | +91 7021475449 | GitHub | Portfolio

PROFILE

Final-year Artificial Intelligence & Machine Learning engineering student with hands-on experience building AI/ML prototypes and full-stack applications across NLP, LLM-powered analytics, computer vision, and data workflows. Seeking an AI/ML or Software Engineering internship to build practical, user-focused solutions.

EDUCATION & TECHNICAL SKILLS

B.E. Artificial Intelligence and Machine Learning — Lokmanya Tilak College of Engineering, Navi Mumbai | Final Year (2026–27) | CGPA: 7.80

Languages: Python, JavaScript, TypeScript, SQL
AI/ML: Machine Learning, Deep Learning, NLP, Computer Vision, scikit-learn, YOLOv8, OpenCV, Groq API
Web & Backend: React, Next.js, Node.js, Express, FastAPI, Django, REST APIs
Data & Tools: PostgreSQL, SQLite, SQLAlchemy, Chart.js, Git, GitHub

SELECTED PROJECTS

VeriJob AI — Fake Job Posting Detector | Python, scikit-learn, NLTK, FastAPI, React
• Built an NLP classifier using TF-IDF and class-weighted training for imbalanced data; evaluated Logistic Regression, Random Forest, and Naive Bayes. Logistic Regression achieved 91% recall on fake postings.

FinSight AI — Natural-Language Banking Analytics | Django, PostgreSQL, Groq LLM, Chart.js
• Built an LLM-to-SQL workflow for plain-English analytics over 1M+ records, with SQL safety validation, dynamic charts, generated-SQL transparency, and AI-written summaries.

DataForge AI — Governed Data Pipeline Workspace | React, Express, PostgreSQL, Drizzle, Groq
• Created a CSV profiling and risk-classified planning workspace with human approval for critical actions, an audit trail, metadata-only LLM planning, and rule-based fallback.

InventoryQR — Warehouse Inventory Tracker | React, FastAPI, SQLAlchemy, SQLite
• Developed QR/barcode verification to validate product locations against rack assignments and track inbound/outbound inventory movements with audit histories.

ChainGuard — Blockchain AML System | React, Node.js, Solidity, Hardhat
• Built a transaction-risk engine and compliance dashboard with smart-contract audit records, role-based access, alerts, watchlists, PDF export, and fund-flow graphs.

EXPERIENCE

Reliance Jio — Video Analytics Intern (Business Automation) Jan 2026
Prototyped chair-occupancy tracking using pretrained YOLOv8 and OpenCV to detect people and measure occupancy duration; tested detection and tracking stability across public-camera angles and documented findings and architecture recommendations.

CERTIFICATIONS

Agentic AI: From Learner to Builder — IBM SkillsBuild with CSRBOX, 4-week program (Jul–Aug 2025)
Green Skills and Artificial Intelligence — Edunet Foundation, Skills4Future (Mar 2025)
